

Key Activities and Products of the Division for Public Institutions and Digital Government

United Nations Department of Economic and Social Affairs

November 2022

Division for Public Institutions and Digital Government

The Division for Public Institutions and Digital Government (DPIDG) is a division of the United Nations Department of Economic and Social Affairs (DESA). It provides secretariat support to the United Nations Programme in Public Administration (GA resolution 723 (VIII)[1] of 23 October 1953 and ECOSOC resolution 1199 (XLII)[2] of 24 May 1967).

Mission

DPIDG's mission is to assist the Member States of the United Nations in advancing the implementation of the 2030 Agenda and the Sustainable Development Goals, including through fostering effective, efficient, transparent, accountable, inclusive and innovative public governance, administration and services for sustainable development.

To learn more about DPIDG, please visit its website.

Transforming institutions and governance to build forward better towards 2030

21ST Session of the Committee of Experts on Public Administration (CEPA)
4-8 April 2022

The Committee of Experts on Public Administration held its twenty-first session at UN Headquarters in New York from 4 to 8 April 2022. The theme of the session was "Transforming institutions and governance to build forward better towards 2030".

A key message of the Committee was that to build forward from the COVID-19 pandemic and advance the implementation of the 2030 Agenda, governments should strengthen their public institutions and their social, physical, and technological infrastructure, while making their economies more resilient and agile to be better prepared to manage potential future economic, social, and environmental shocks. This called, inter alia, for political will, a change of mindsets and the sound management of public resources.

Principles of

Effective Governance for Sustainable Development

Effectiveness

- » Competence
- » Sound policymaking
- » Collaboration

Accountability

- » Integrity
- » Transparency
- » Independent oversight

Inclusiveness

- » Leaving no one behind
- » Non-discrimination
- » Participation
- » Subsidiarity
- » Intergenerational equity

Principles of effective governance for sustainable development

What are they for?

- » Building strong institutions at all levels
- » Serving as a reference point that brings together relevant standards and technical guidelines
- » Informing public sector reform initiatives for the SDGs

Where do they come from?

- » Developed by CEPA specifically for SDG implementation
- » Endorsed by the UN Economic and Social Council
- » Based on United Nations agreements

How can countries benefit from them?

- » As an analytical framework in policy formulation
- » As a guide in assessing institutional capacities, processes and culture
- » As a foundation of SDG awareness raising and training initiatives

Committee of Experts on Public Administration

CEPA is an expert body of the United Nations that studies and makes recommendations to improve governance and public administration structures and processes for development.

Principles of Effective Governance for Sustainable Development

EFFECTIVENESS SOUND COLLABORATION **POLICY MAKING ACCOUNTABILITY** ION DISCRIMINATION **PARTICIPATION INCLUSIVENESS** INDEPENDENT INTEGRITY TRANSPARENCY **OVERSIGHT** INTERGENERATIONAL SUBSIDIARITY **EOUITY**

What are the 11 principles of effective governance?

How does one know when countries have implemented good governance? Although a cornerstone of all developmental efforts and the sine qua non of sustainability, governance is often nebulous. As a concept, it is hard to decipher. As a practice, it is hard to pin down. The eleven Principles of effective governance for sustainable development tackle precisely this conundrum: how to lucidly operationalize governance so that everyone can find common ground when talking about its scope and scale thereby integrating it ably into SDG implementation.

Developed to help interested countries, on a voluntary basis, build effective, accountable and inclusive institutions with a view to achieving the transformative vision of the 2030 Agenda for Sustainable Development, they apply to all public institutions, including executive and legislative organs, public entities active in security and justice sectors, independent constitutional bodies and state enterprises, among others.

Coupled with 62 commonly applied strategies, many of which have been recognized and endorsed over the years in various United Nations forums, resolutions and treaties, the 11 principles are being operationalized in such ways that the global tapestry of governance can be made more visible and legible for all countries and all people.

What are the objectives?

How can they benefit the Member States

Help interested countries, on a voluntary basis, build

effective, accountable, inclusive

institutions at all levels, with a view to achieving the shared vision for the people and the planet embodied in the 2030 Agenda.

ICTs for Well-Being, Inclusion and Resilience: WSIS Cooperation for Accelerating Progress on the SDGs.

Creating synergies and partnerships on e-government between national and local levels

DPIDG organized a facilitation meeting on WSIS Action Lines C1 (promotion of ICTs for development), C7 (e-Government) and C11 (international and regional collaboration) on 30 May 2022 during the in person final week of the World Summit on Information Society (WSIS) Forum 2022. The session focused on the role of government and other stakeholders in promoting the use of ICTs for development as well as international and regional cooperation. In particular, the session highlighted e-government initiatives at national and local levels and how to create synergies and partnerships between the two. After an overview of the global e-government situation by the Digital Government Branch including the situation in cities, national governments, city officials, and UN agencies shared their experiences in aligning national and local e-government initiatives. Panelists shared concerns about inclusiveness including digital divides within cities, interoperability between city and national portals, usage of city portals, and impact of these portals on residents. It was noted there is further need for collaboration between cities and the LOSI network can fill a gap in this area. City officials also highlighted engagement as one of the challenges and sought support on how to engage people in city matters. There was a concrete suggestion on creating working groups studying the impact of a city population on the city e-government portal performance. Panelists also highlighted many opportunities including the application of LOSI methodology in cities in a single country, United for Smart and Sustainable Cities initiative of the UN and its Toolkit on digital transformation for cities, Asia & Pacific Information highway and its activities on rural/urban connectivity. The **United Nations Public Service Awards** is the most prestigious international recognition of excellence in public service. It rewards the creative achievements and contributions of public service institutions that lead to a more effective and responsive public administration in countries worldwide. Through an annual competition, the UN Public Service Awards promotes the role, professionalism and visibility of public service.

The **UN Public Service Day** intends to celebrate the value and virtue of public service to the community; highlight the contribution of public service in the development process; recognize the work of public servants, and encourage young people to pursue careers in the public sector. Since the first Awards Ceremony in 2003, the United Nations has received an increasing number of submissions from all around the world.

UN Public Service Forum

The United Nations Public Service Forum is a unique capacity development global event on public governance that provides a platform to explore, discuss and learn about: (i) emerging challenges, issues and trends in public governance; (ii) innovative practices to address these challenges; and (iii) capacity development strategies, approaches and tools in support of sustainable development.

Every year the Forum focuses on a specific critical area of public governance and explores its different dimensions and components in a holistic way. The Forum brings together world leaders, policy-makers, practitioners, innovators in governance, representatives of international and regional organizations, the academia, non-profit organizations and the private sector.

2022 United Nations Public Service Day Celebration

Building Back Better from COVID-19: Enhancing Innovative Partnerships to Meet the Sustainable Development Goals

Live Stream on UN Web TV | 22 June 2022, 9:00 - 10:30 am EDT

United Nations Public Service Day, celebrated on 23 June each year, recognizes the value and virtue of public service to the community; highlights the contribution of public service in the development process; recognizes the work of public servants, and encourages young people to pursue careers in the public sector.

Taking its lead from the 2022 theme of the United Nations High-level Political Forum (HLPF), the main body for reviewing implementation of the 2030 Sustainable Development Agenda, the 2022 UN Public Service Day commemoration, celebrated this year on 22 June, focused on the role of public institutions and public servants in building back better from COVID-19 as they work to meet the 2030 deadline for implementing the Sustainable Development Goals.

How can external audits promote budget credibility?

LEVERAGING THE ROLE OF SUPREME AUDIT INSTITUTIONS

Jointly convened by the International Budget Partnership (IBP) and UNDESA's Division for Public Institutions and Digital Government (DPIDG), this interactive session discussed how supreme audit institutions may contribute to understanding and enhancing budget credibility through their audits. The session took place through zoom with simultaneous interpretation in English, French, and Spanish.

More information is available here.

2023-2028

INTERNATIONAL ORGANIZATION OF SUPREME AUDIT INSTITUTIONS

This is the strategic plan of the International Organization of Supreme Audit Institutions (INTOSAI). It presents the organization's mission, vision, values, organizational priorities, and strategic goals for the period from 2023 to 2028.

INTOSAI is a global body that brings together and supports its diverse membership of public sector audit institutions under the motto of "mutual experience benefits all."

INTOSAI and its members operate in increasingly dynamic, interconnected, and complex environments. They are required to be professional, independent, inclusive, and resilient in order to deliver value and benefits to their governments and citizens.

To read this strategic plan, please visit here.

25th UN/INTOSAI Symposium

28 to 30 June 2021

The Symposium, co-organized by UNDESA and the International Organization of Supreme Audit Institutions (INTOSAI), brings together representatives from supreme audit institutions, the United Nations, international organizations, resource experts and relevant stakeholders to discuss the impact of COVID-19 on the working methods, processes and audit work of supreme audit institutions.

The symposium is organised along four main sub-themes: (i) Impact of COVID-19 on SAIs' organizational capacities, working methods and processes; (ii) Experiences and good practices in auditing the COVID-19 responses and recovery plans; (iii) Innovative approaches to enhancing the transparency of and accountability for COVID-19 responses; and (iv) Resilient accountability systems and institutions in the aftermath of COVID-19.

DESA Working Paper No. 157 ST/ESA/2019/DWP/157

January 2019

The role of external audits in enhancing transparency and accountability for the Sustainable Development Goals

Author: Aránzazu Guillán Monteroa and David Le Blanca

ABSTRACT

This paper examines the involvement of supreme audit institutions (SAIs) in auditing the preparedness of governments for implementing the Sustainable Development Goals (SDGs) since 2015. These audits have covered institutional arrangements put in place to implement the SDGs, the mobilization of resources, and monitoring and evaluation frameworks. SDG preparedness audits have produced valuable information that is not necessarily available from other national processes linked with SDG follow-up and review. As such, audit recommendations can be a powerful tool to help governments improve SDG implementation. The paper reflects on the impact that SDG audits have made, and on the challenges and opportunities for SAIs that have engaged in this exercise. While many of these challenges are generic to the work of SAIs, SDG audits also present specific political, institutional and technical problems. Finally, the paper explores questions that this new area of engagement poses for SAIs, including the long-term prospects for institutionalization of SDG audits and the relationship with other accountability mechanisms for the SDGs at the national level.

JEL Classification: F55; H83; O19; O20

Sustainable Development Goals: 16; 16.6; 17.14

Keywords: Sustainable development goals; sustainable development; government accountability; supreme audit institutions.

Capacity Development Curriculum on Governance for the Sustainable Development Goals FACT SHEET

BY THE NUMBERS

7 Toolkits launched in 2021 - for facilitation by the UN system, schools of public administration, RCOs, academia and other training providers

- 100+
- Customizable modules in total, incl. concepts, practical examples, case studies, activities and audiovisual material for application both in in-person and virtual settings

Partnerships for internal and external expert reviews of the toolkits, incl. cross-office collaboration with CDPMO, DISD, DSDG, EAPD, Forum on Forests, FSDO, PD and SD

Regions (Africa, Caribbean, Middle East, and Asia and the Pacific) for 7 pilot tests of the toolkits.

PRELIMINARY FEEDBACK RECEIVED

of responding attendees reported that they were very or somewhat satisfied with their experience at the training workshops

94%

of workshop participants stated that they would apply the knowledge learned in their daily work.

"During the toolkit piloting, the speakers talked extensively about sustainable development, how to build resilience, and ways government can use risk- informed governance to reduce disaster. It was such an interesting and educative session."

"The topics of the toolkit are very relevant to the context of our country. The toolkit is also user-friendly and could for example be used to train younger public servants."

"The toolkit looks nice and well-designed, and it gives us some ideas for our own e-learning tools."

NEXT STEP IN 2023

Pilot testing all toolkits by leveraging a whole-of-DESA approach to enhance capacities of public servants to effectively integrate SDGs into policy and practice

The Report was prepared by the UN DESA / DPIDG and UNPOG. It contains key information about the 36 webinars conducted in 2020-2021 to pilot-test the Curriculum's toolkits. The curriculum on Governance for the SDGs is a comprehensive set of Training of Trainers Capacity Development Toolkits developed by DPIDG, UN DESA.

To read the report, please click here.

The Digital Government Capability Assessment (DGCA) is a six-dimension framework of enablers to engage governments in discussions towards digital government transformation. Considering that digital government requires a multifaceted response from governments, the dimensions of the DGCA contain various statements which could guide governments in understanding gaps and policy entry points. This tool can be used at the interinstitutional level as part of a national exercise or as an international comparative exchange between different countries at the regional or global level.

To read more, please click here.

This Handbook, prepared by UN DESA/DPIDG, provides local and national governments with a set of conceptual approaches, practical strategies, and tools to improve the delivery of public services through citizen-centric One-stop-Shops (OSS). It includes guidance on how to prepare an action plan to establish One-stop-Shops for public service delivery systems.

To read more, please click here.

Handbooks

This handbook is a tool that contains questions to facilitate a participatory dialogue process among national ministries/agencies (and sub-national levels of government). The assessment is composed of 9 building blocks, which together give an indication of whether and to what extent a government agency has in place mechanisms that effectively enhance institutional arrangements for policy coherence to implement sustainable development goals.

Projects

UN Project Office on Governance (UNPOG)

2124B - UN DESA Project on Frontier Technology Policy Experimentation and Regulatory Sandboxes in Asia and the Pacific

Key Accomplishments:

- (i) Enhanced institutional capacity of selected countries to identify opportunities and gaps (institutional, policy, regulatory, and infrastructure support) on policy experimentation and regulatory sandboxes in new technologies;
- (ii) Improved capacity of target countries to conceptualize and implement pragmatic solutions on operationalizing policy experimentation and regulatory sandboxes in new technologies;
- (iii) Enhanced global and regional dialogue and cooperation among countries and stakeholders on policy experimentation and regulatory sandboxes in new technologies.

Objective: To improve the institutional capacity of countries to develop policy experimentation and regulatory sandboxes on new technologies as an innovative and catalytic approach to accelerate the progress of the 2030 Agenda for Sustainable Development.

Partners: UN ESCAP/IDD
Time Frame: January
2021 - December 2024
Focus Countries:
Bangladesh (LDC),
Kazakhstan (LLDC),
Maldives (SIDS)

Building capacities for promoting the presence and leadership of women within public institutions at national and local levels

Key accomplishments:

- i) Enhanced capacity of governments in the project countries to develop and implement action plans that prioritize gender parity in public administration at the national and local levels;
- ii) Enhanced awareness and understanding of government officials in partnering countries on the importance of and how to prioritize gender parity in public administration.

Objective/Purpose of Project:

To enhance the presence and leadership of women in public institutions at national and local levels in Mauritius and Senegal, Bhutan, and the Lao People's Democratic Republic.

Partners: ECA, ESCAP, RCOs in the respective Countries, UNDP and UN Women

Time Frame: May 2022 - June

2024

Focus Countries: Bhutan, Lao PDR, Mauritius and Senegal

Strengthened capacities of developing countries participating in the Belt and Road Initiative to advance the implementation of the 2030 Agenda for Sustainable Development through enhanced development policy synergy, mutual learning and people-to-people exchange

Key Accomplishments:

Enhanced capacities of senior policymakers and public servants in selected LDCs, LLDCs and SIDS to plan design and implement coherent, coordinated and harmonized national sustainable development strategies, policies and approaches to accelerate the implementation of the 2030 Agenda, tapping into opportunities arising form BRI; Improved capacity of senior policymakers and public servants to initiate and spearhead cohesive, inclusive and transformative initiatives and projects in the implementation of the 2030 Agenda and the SDGs through whole-of-government and whole-of-society approaches, building on peer and mutual learning and exchange of national experiences in the context of Belt and Road Initiative.

Objective/Purpose of Project:

To strengthen the knowledge and capabilities of senior policy makers and public servants in developing countries, in particular LDCs, LLDCs and SIDS that participate in the BRI.

Partners: China National Academy of Governance, Shanghai Academy of Social Sciences
Time Frame: December 2021November 2022

Focus Countries: Global

The Use of New Technology Policy Experimentation and Regulatory Sandboxes for Digital Transformation in the Republic of Kazakhstan: A Pilot Initiative

Key Accomplishments:

- (i) Enhanced institutional capacity of public servants in Kazakhstan to identify technology-enabled opportunities and gaps (institutional, regulatory, and/or infrastructure related) in addressing specific challenges of sustainable development;
- (ii) Enhanced global and regional dialogue and cooperation between Kazakhstan and countries represented by experts and stakeholders on policy experimentation and regulatory sandboxes in new technologies; for possible scale-up and replication in other countries.

Objective/Purpose of Project:

The main objective of this project is to improve institutional capacity of public servants of Kazakhstan to design regulatory frameworks for frontier technologies and experimental innovation that can maximizing the benefits and minimizing the risks of technological advancement for implementation for the 2030 Agenda for Sustainable Development.

Partners: Ministry of Digital Development of Kazakhstan

Time Frame: 01 October 2021

-01 June 2023

Focus Countries: Kazakhstan

Changing Mindsets in Public Institutions to Implement the 2030 Agenda for Sustainable Development in Pakistan 24-28 JANUARY 2022 Government National Management College United Nations

UN DESA/DPIDG and the National School of Public Policy (NSPP) of Pakistan, in collaboration with the UN Resident Coordinator Office in Pakistan, co-organized a five-days Capacity Development Training Workshop on Changing Mindsets in Public Institutions to Realize the 2030 Agenda in Pakistan. The objective of the present workshop was to equip public servants with innovative mindsets and behaviors to better address current and future challenges. Capacity Building Workshop on Implementing New Approaches to E-government for SDG Implementation

Istanbul, Türkiye 17 - 18 November 2022

UN DESA/DPIDG and the D-8 Organization organized a Capacity Building Workshop on Implementing New Approaches to E-government for SDG Implementation. This Workshop served as a continuation of the online Workshop conducted in March, particularly to address the challenges presented during that Workshop. The workshop is designed to build the capacity of relevant officials, who are responsible for shaping the digital transformation policy, for answering to the ever-growing challenges they face in implementing their respective digital transformation agendas. It also aims to enhance the capacity of public officials in digital government skills, strengthening collaboration between government agencies, and promoting of production of indigenous ICT access for public officials and the educational sector. The workshop took place in a face-to-face setting in Istanbul, Türkiye, from 17 to 18 November 2022.

Regional SYMPOSIUM on

Effective Governance and Digital Transformation for Accelerating Implementation of the 2030 Agenda for Sustainable Development and Addressing Global Challenges

22 - 24 November 2022 10:00 AM - 6:00 PM Seoul, GMT+9 Incheon, Republic of Korea and Online

The Regional Symposium aims to raise awareness of critical public governance issues, examine current and future trends and provide new approaches and methodologies to support the United Nations Member States in developing their capacities toward achieving the 2030 Agenda for Sustainable Development. It also promotes peer-to-peer learning by providing participants with the opportunity to share knowledge and exchange innovative practices.

17th Internet Governance Forum

It will be conducted in English.

17th Internet Governance Forum

ANNUAL MEETING OF THE GLOBAL INITIATIVE ON BUILDING CAPACITIES OF PUBLIC SERVANTS FOR SDGS IMPLEMENTATION

Mainstreaming the SDGs in the Curricula of Schools of Public Administration,
New Mindsets and Competencies

08 December 2022 | 07:00 AM - 10:30 AM | New York time - GMT-5

The 2022 Annual Meeting of the Global Initiative with Schools of Public Administration on "Mainstreaming the SDGs in the Curricula of Schools of Public Administration, New Mindsets and Competencies" will be organized by the UN DESA/DPIDG and it's United Nations Project Office on Governance (UNPOG), and in collaboration with the Asian Association for Public Administration (AAPA) and the Eastern Regional Organization for Public Administration (EROPA). The 2022 Annual Meeting aims to provide an opportunity for schools of public administration and institutes of training to present their progress in mainstreaming the SDGs in their curricula.

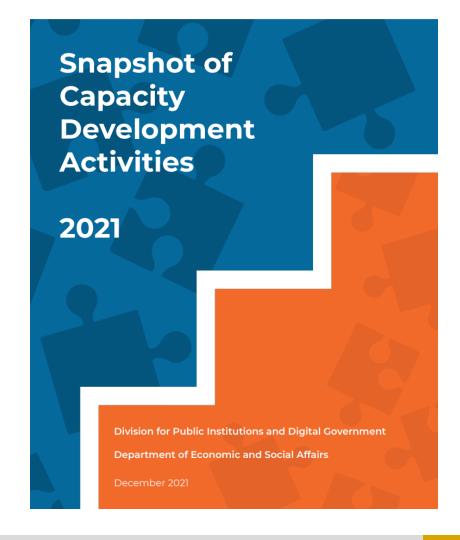

Snapshot of Capacity Development Activities 2021

This report provides a snapshot of the capacity development activities undertaken by UN DESA's Division for Public Institutions and Digital Government (DPIDG) in 2021. During 2021 DPIDG:

- Organized 30+ capacity development activities with 79 webinars and a total reach of 25,000 people.
- Provided strategic support to the Resident Coordinator System by contributing to the Common Country Assessments of 22 countries.
- Coordinated and implemented 9 capacity development projects.
- Received official requests for support from 46 Member States from all regions of the world, which indicates a high interest in the capacity development of DPIDG and in governance-related issues.
- Supported a total of 27 Member States (completed and ongoing support), working in close cooperation with the Resident Coordinators.
- Produced a Curriculum on Governance for the SDGs with 7 training of trainers' toolkits.

Capacity Development Brochure

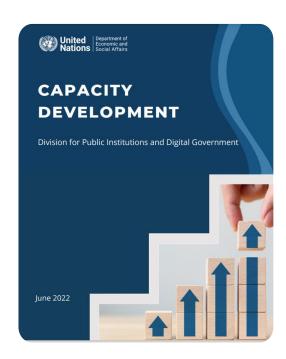

UN DESA's Division for Public Institutions and Digital Government (DPIDG) advances effective, accountable and inclusive governance and public institutions for sustainable development, including through innovation, digital government and digital transformation. The Division provides capacity building and policy advice to countries, on request, to strengthen governments' capacities to translate the Sustainable Development Goals (SDGs) and other internationally agreed goals into institutional arrangements, strategies and programmes for effective service delivery and participatory, accountable and inclusive decision-making processes.
