Presentation of the dashboard of the drivers of change in the Caribbean region based on the responses from the online survey

Mr. Gregory McGann, DPIDG, UN DESA

## Dashboard

## Provides a broad-based tool for high level overview.

#### The most chosen drivers:

- Growing Disconnect between Pace of Technological, Economic, Social, and Environmental changes and the Ability of the Legislative Power to Respond(22)
- Rise of Digitalization, AI, and Cyber Politics (21) and Climate change as an Existential Threat (21)
- Digital Diplomacy and Evolving Frameworks of International Data Governance for Data Protection/Control, Privacy Laws, Cross Border Data Flows, and Cybersecurity (20)

The survey had 25 total respondents.
