9:00 – 9:45	<p><b>Welcome and opening remarks</b></p> <p>Moderator: <b>Mr. Amson Sibanda</b>, Chief, National Strategies and Capacity Building Branch, UN DESA Division for Sustainable Development Goals</p> <ul style="list-style-type: none"> <li>• <b>Mr. Li Junhua</b>, <b>Under-Secretary General for Economic and Social Affairs</b>, UN Department of Economic and Social Affairs (video message)</li> <li>• <b>Ms. Marie-Antoinette Rose Quarte</b>, CEO, African Peer Review Mechanism</li> <li>• <b>Ms. Geraldine Fraser-Moleketi</b>, Chair, UN Committee of Experts on Public Administration and Chancellor of Nelson Mandela University</li> <li>• <b>Ms. Yoliswa Makhasi</b>, Director General, Department of Public Service and Administration, South Africa</li> </ul>
9:45 – 11:00	<p><b>Session 1: Taking stock of implementation of the 2030 Agenda and 2063 Agenda in Africa</b></p> <p>Although African countries have made progress in relation to some Sustainable Development Goals and Agenda 2063, overall, the continent is in a moment of acute peril. Mirroring trends across the world, the continent has seen an increase in poverty and hunger, inequalities and vulnerabilities, armed conflicts, violence, displacement, terrorism, climate change and disease. At the halfway point in the implementation of the 2030 Agenda for Sustainable Development, Africa is off track for meeting most targets of the Sustainable Development Goals and has even regressed on some, such as increase of chronic hunger in the region from 15.1 per cent in 2010 to 19.7 per cent in 2022, and remaining home to 55 per cent of the world’s population living below the USD 2.15/day international poverty line. The prevalence of moderate or severe food insecurity in Africa at 58 per cent is nearly double the global average with 20.4 per cent of the population facing hunger.</p> <p><i>Guiding questions</i></p> <ol style="list-style-type: none"> <li>1. How can countries and stakeholders improve coordination and collaboration across sectors to address the interconnected challenges of poverty, hunger, and climate change, ensuring a holistic approach to achieving the SDGs and Agenda 2063 goals?</li> <li>2. How can we enhance the inclusivity and effectiveness of monitoring and accountability mechanisms for both the 2030 Agenda and Agenda 2063 to ensure that all stakeholders are included?</li> </ol>

	<ol style="list-style-type: none"> <li>3. What role can technology, including Artificial Intelligence, and innovation play in accelerating progress towards the 2030 Agenda and Agenda 2063?</li> <li>4. What are some strategies for aligning the fiscal space with the priorities outlined in the 2030 Agenda and Agenda 2063?</li> <li>5. What lessons can be learned from successful national - practices in implementing the SDGs and Agenda 2063, including at the sub-national levels?</li> </ol> <p><i>Moderator:</i> <b>Mr. Julius Mathieu Russel Joubert</b>, Senior Economist, National Planning Department, Seychelles</p> <p><i>Speakers:</i></p> <ul style="list-style-type: none"> <li>• <b>Mr. Ibrahim Al-bakri Nyei</b>, Deputy Minister for International Cooperation &amp; Economic Integration, Liberia</li> <li>• <b>Ms. Elizabeth Banda</b>, Principal Economist, Monitoring and Evaluation Division, Department of Economic Planning and Development, Malawi</li> <li>• <b>Mr. Lusanda Bataala</b>, Senior Expert, National Planning Commission, South Africa (TBC)</li> <li>• <b>Ms. Game Molly Mooketsa</b>, Chief Economist, National Planning Commission, Botswana</li> <li>• <b>Ms. Punki Modise</b>, Chief Strategy and Sustainability Officer, Absa Group</li> </ul> <p>Interactive discussion</p>
11:00 – 11:15	<b>Break</b>
11:15 – 13:00	<p><b>Session 2: Accelerating implementation of the SDGs and Agenda 2063: leveraging the six transitions to scale up action at national and local levels</b></p> <p>This session will focus on leveraging the six UN transformative transitions to accelerate the implementation of the Sustainable Development Goals and Agenda 2063. The transitions are in the areas of <b>food systems, energy access and affordability, digital connectivity, education, jobs and social protection, and climate change, biodiversity loss, and pollution</b>. By examining how these key transitions can act as catalytic drivers and have multiplier effects for progress across the SDGs, participants will explore strategies for integrating these transitions into national and local development plans. The session aims to identify areas for action, share successful examples, and address challenges to scale up efforts and achieve meaningful impact. This session will also introduce the GSDR 2023 and explain the key findings and recommendations from the report. Discussion will focus on how to apply GSDR's approach for policy-making and concrete actions.</p> <p><i>Guiding questions</i></p> <ul style="list-style-type: none"> <li>• How can the six key transitions be effectively integrated into national and local strategies to accelerate progress towards the SDGs and Agenda 2063? How do the six transitions relate to the APRM National Plans of Action?</li> <li>• What are some examples of successful initiatives or projects that have leveraged some of the six transitions to drive progress in achieving the SDGs and Agenda 2063 Goals?</li> <li>• What challenges do countries face when trying to align their development plans with the six transitions?</li> <li>• How can different stakeholders, including governments, international organizations, the private sector and civil society, collaborate to maximize the impact of use of the transitions and manage trade-offs?</li> <li>• How can the governance and capacity-building insights of the 2023 Global Sustainable Development Report inform progress towards the six transitions?</li> </ul>

## Day 2 – Friday, 25 October

09:00 –  
11:00

### Session 4: Making SDG 16 by 2030 and Moonshot 3 by 2033 a reality

This session will explore how the principles of competence, sound policymaking, leaving no one behind, and subsidiarity can be applied to achieve SDG 16, which promotes peaceful, just, and inclusive societies, by 2030. The second 10-year implementation plan of Agenda 2063 of the African Union and its associated moonshot 3 seeks to entrench democratic and inclusive institutions in countries across the continent by 2033. Moonshot 3 seeks to nurture capable institutions and transformative leadership at all levels. The lessons drawn from the first decade underscore the need, among others, to promote accountability of public institutions to African citizens, entrench values of democracy, justice and human rights, and exemplify good governance. Discussions will focus on practical strategies and collaborative efforts to integrate these principles into governance frameworks, ensuring inclusive and effective public administration.

#### *Guiding questions*

1. What key actions can governments take to enhance institutional effectiveness and ensure progress toward achieving SDG 16 and Moonshot 3?
2. How can policymakers create an environment that fosters inclusive participation and ensures all communities are represented in decision-making processes for good governance?
3. What role do local governments and communities play and how can their capacities be strengthened?
4. What are some of effective ways to implement policies that promote justice, peace, and inclusion while addressing the specific needs of diverse population groups?
5. How can collaboration between various levels of government and civil society be improved to achieve sustainable progress in governance and justice initiatives?

### Day 3 – Saturday, 26 October

9:00 –  
11:30

#### **Session 6: Building resilience to global shocks and safeguarding the future**

This session will explore strategies for building resilience to global shocks and safeguarding the future, drawing on recent international frameworks. It will provide insights from the Pact for the Future, a global commitment agreed to at the Summit of the Future, and the Global Digital Compact, which aims to ensure inclusive and equitable digital transformation, as well as the outcome of the 2024 High-Level Forum on Sustainable Development (HLPF). The discussion will also focus on moving towards a balanced financial architecture in Africa, to illustrate how financial systems can be structured to withstand global economic shifts. The session will also examine the governance-natural resources nexus in Africa and outline strategies for the way forward, particularly in preparation for the 2025 African Governance Report.

*Guiding questions*

1. How can the commitments and actions outlined in the Pact for the Future be effectively implemented to build resilience against global shocks in African countries?
2. What specific reforms are necessary to create a balanced financial architecture that can withstand global economic fluctuations?
3. How can the HLPF and voluntary national reviews (VNRs) contribute to accelerating achievement of the SDGs at the continental level?
4. What strategies can African countries adopt to improve governance systems, ensuring they contribute to sustainable development and resilience?
