RELX's SDG RESOURCE CENTRE

In 2017 RELX launched the external facing SDG Resource Center, which contains articles, tools, data, events and news from all parts of our business to advance action on the UN Sustainable Development Goals.

RELX's SDG RESOURCE CENTRE

Given our expertise in data and analytics, we are creating SDG Graphics on the RELX SDG Resource Centre for each of the 17 SDGs. These show which nations are producing research, how good and collaborative it is, and importantly, the output divide between global North and South.

Since 2017, we have made over 1,800 journal articles and book chapters free to access via which would have otherwise cost nearly £4m to make open access.

The number of unique users of the RELX SDG Resource Centre in 2023 reached 220K.

GLOBAL NEWS LANGUAGE KEYWORD

Use our interactive global news maps to see which geographical areas are being referenced in global news about each SDG. Double click on a region to see a map broken down by country, then double click again to see the map broken down by state/province. Click once on any of the maps to see the search results for the highlighted location.
