DEVELOPMENT GOALS**

Mainstreaming the Sustainable Development Goals in the Standards of Excellence

- **Purpose of this session:** to solicit as many views as possible from all of you.
- **Key objectives:** discuss how to mainstream the **Sustainable Development Goals (SDGs)** in the Standards of Excellence. Consideration should be given to the **11 principles of effective governance for sustainable development and the Curriculum on Governance for the SDGs**.
- Reflect changes in the use of digital technologies and how to prepare for the future.
- The aim currently is not to arrive at a consensus until views from all the regions are collected as well as from the online survey.
- The inputs will be compiled in an online matrix, which will be shared with all the Task Force members for further review and discussion at an Expert Group Meeting to be held in 2024.

Social Affairs

A low-angle, upward-looking photograph of a modern skyscraper with a dark, textured facade. The building's lines converge towards the top of the frame. The sky is a vibrant blue, filled with scattered white clouds. In the bottom right corner, there are several overlapping, semi-transparent white geometric shapes, including squares and rectangles, creating a modern, layered design element.

Thank you.
