Subject: Together for Development

Friendship b/w Govt.& Public/stakeholders needed, to ensure Democratic Governance & Sustainable Development.

Policy to ensure Education, job after education, health, house & green environment for every citizen; this is the key of Peace& Sustainable Development.

To add or change any policy, stakeholders/citizen participation must be ensured.

Procurement report needs to publish in easy & understandable way for the stakeholders/ community & their opinion must be honoured.

Computerised inclusive &reliable data bank, unique financial management system for transparency & accountability.

Dissemination of the information in written, easy & understandable way.

Forum/public platform to ensure active stakeholder's participation.

Black/non-productive money is threat for development. Need to make all Government personnel's & stakeholders/citizen's income visible/transparent.

Quota for women in every decision making body.

Government should develop a format to assess their work to get public opinion & should produce assessment report including their plan how they will meet the public needs.

For effective governance; a) Community needs to empower about their rights& responsibilities. b) To deliver effective services, Govt. representatives/elected members need to enhance their capabilities to understand the States rules, regulations, rights & responsibilities.
