E-RESIDENCE PROJECT
ACCESS TO THE INTERNET
«ASTANA HUB»
MINING
SMART DATA UKIMET

e-Residence allows everyone in the world to get access to a developed e-government system, which in practice means completely electronic and remote interaction with the state when registering a company, working with banks, and paying taxes.

98% of Kazakhstan's population has access to the **Internet.**

The international Technopark of IT startups **«Astana Hub»** was established for the creation of an innovation ecosystem. Astana Hub participants are **exempt from taxes**.

Legislative amendments on the implementation of activities **related** to **mining** were adopted this year.

SMART DATA UKIMET combines a large amount of data from state bodies and allows making decisions based on them

Thank you!
